

Section 01578 S

CONTROL OF GROUND AND SURFACE WATER

*The following supplement modifies Section 01578 - Control of Ground and Surface Water. Where a portion of the Specification is modified or deleted by this Supplementary Specification, the unaltered portions of the Specification shall remain in effect.*

- 1.02 MEASUREMENT AND PAYMENT. Delete subparagraphs A.1 through A.4 and add the following subparagraphs A.1 through A.5:
1. When noted, dewatering of trench or excavation during course of project shall be measured per linear foot and paid for at contract unit prices for dewatering, when directed to perform such work by Project Manager. Dewatering must be fully detailed in submittal and submittal must be approved prior to performing dewatering work before payment will be made for dewatering. No payment will be made for work unless directed to perform work by Project Manager.
  2. Presence of a pump on project does not constitute dewatering for payment under bid item "Ground Water Control for Open Cut Construction."
  3. Dewatering required during course of project to lower water table for other utility installation less than 24 inches in diameter, construction of structures, removal of standing water, surface drainage seepage, or to protect against rising waters or floods shall be considered incidental to Work unless otherwise noted.
  4. No separate payment will be made for groundwater control associated with augering, tunnels or casing. Include cost in unit price for augering.
  5. Refer to Section 01270 - Measurement and Payment for unit price procedures."

END OF SUPPLEMENT
